

**AMENDMENTS TO THE CLAIMS:**

The following listing of claims replaces all prior listings, and all prior versions, of claims in the application.

**LISTING OF CLAIMS:**

[1] (Currently amended) A decorative sheet for simultaneous decoration and injection molding, which is a ~~laminated~~lamine-type and which comprises a base film and at least a decorative layer provided on the base film, the decorative sheet having an elongation at break as measured at 25°C of 3 to 10%, and an elongation at break as measured at 120°C of 200% or more.

[2] (Original) A decorative sheet for simultaneous decoration and injection molding according to claim 1, which has an elongation at break as measured at 25°C of 3 to 7%.

[3] (Currently amended) A decorative sheet for simultaneous decoration and injection molding according to claim 1-~~or~~2, which has an elongation at break as measured at 120°C of 200 to 400%.

[4] (Currently amended) A decorative sheet for simultaneous decoration and injection molding according to claim 1~~any of claims 1 to 3~~, wherein the base film is formed of an acrylic resin composition.

[5] (Original) A decorative sheet for simultaneous decoration and injection molding according to claim 4, wherein the acrylic resin composition is a resin

composition containing, as a primary component, a polyacrylate and/or a polymethacrylate.

[6] (Currently amended) A decorated resin molded product comprising a resin molding, and a decorative sheet as recited in claim 1~~any of claims 1 to 5~~, the sheet being bonded onto the molding, wherein the decorative layer of the decorative sheet is bonded to the molding.

[7] (New) A decorative sheet for simultaneous decoration and injection molding according to claim 2, which has an elongation at break as measured at 120°C of 200 to 400%.

[8] (New) A decorative sheet for simultaneous decoration and injection molding according to claim 7, wherein the base film is formed of an acrylic resin composition.

[9] (New) A decorative sheet for simultaneous decoration and injection molding according to claim 8, wherein the acrylic resin composition is a resin composition containing, as a primary component, a polyacrylate and/or a polymethacrylate.

[10] (New) A decorated resin molded product comprising a resin molding, and a decorative sheet as recited in claim 9, the sheet being bonded onto the molding, wherein the decorative layer of the decorative sheet is bonded to the molding.
